

## Texas Model United Nations • – Working Paper Template (Resolutions)

This template should be used for all **resolution-writing committees** at TEX MUN. In submitting this document to the Dais, the authors affirm that they did not write any of the text of the working paper before arriving at TexMUN or reproduce it directly from other sources without proper reference. All working papers should be drafted in collaboration with other members of your committee.

Please replace the sample text below with your own original text, add clauses as needed, and apply the formatting Styles (**\*Committee Name** for the first line of the working paper; **\*Preambular Clause** for preambular clauses; and **\*Operative Clause** for operatives). Please keep these instructions in the working paper; they will be deleted by the Dais when the working paper is accepted as a draft resolution.

If you are using Google Docs to draft your working paper, please be advised that formatting will not transfer easily between Google Docs and Word. Accordingly, please carefully transfer your material into this template and ensure that everything is formatted correctly, using the Styles provided in this document, before submitting to the Dais.
